Welcome to the world of V-Guard

Incepted in 1977, V-Guard began its journey manufacturing voltage stabilizers. Today we stand tall not only as India's largest selling voltage stabilizers but with a diversified portfolio including electrical, electro mechanical, electronic products and kitchen appliances, a turnover of more than 2000 crs. and a trusted brand name, with a pan India presence.

Stringent quality control measures, quality products, reliable technology, excellent customer service and a responsible approach to business enabled V-Guard to steadily capture the market and most importantly the mindshare of the consumers.

In the last four decades, V-Guard has earned itself both respect & reputation in the market for designing and manufacturing long- lasting products. Today, we have grown into one of the biggest names in the electrical and electro mechanical space with a wide range of products that include Voltage stabilizers, Inverters & Digital UPS systems, Pumps, House wiring/LT cables, Electric water heaters, Fans, Solar water heaters, Switchgears, and have forayed into the kitchen appliances segment with mixer grinders, gas stoves and induction cooktops. The new addition in the electricals segment is modular switches.

Changing landscape of Indian homes

The new age Indian consumer is riding on the back of higher disposable income, changing lifestyle, urbanization, increasing consumer awareness and the influence of the growing Internet penetration. Today information and access is at their fingertips. The home is at the center of this evolution. Everything that goes into their home is a reflection of their personality and is held in high esteem. Products that help express their identity and give them a pride and status are accorded prime spots in the home. They seek more than functional benefits in any product that adorns the home. Therefore, values that drive image – like design, modernity, technology, innovation, colours, material are gaining more importance

Switches that'll go TIK -TOK no matter what.

At V-Guard, it has been our endeavour to seamlessly bring together technology, innovation, durability and longevity to bring you a product that will stand the test of time and be a joy to use. When you choose V-Guard, you've chosen a name that comes with a history of delivering flawless products that are built to last. The latest addition to our wide range of products is the Modular Switch range under the brand name Novio. Crafted using the most superior components and with the highest standards in quality, these switches have been built keeping the discerning consumer preferences in mind. The Novio range is armed with Shrouded Terminals for enhanced safety, Silver contacts for better conductivity and UV protected FR grade poly carbonate for enhanced durability making sure that these switches go TIK TOK no matter what.

Beautiful switches for beautiful homes

The Novio range of switches are aesthetically designed to seamlessly blend into the décor of your adorable homes. Crafted with finesse and smooth finishes to adorn your home, gracefully.

An assurance of the perfect purchase.

Designed to perfection, V-Guard's Novio is a sturdy range of modular switches that are recognized and in line with BIS standards. Giving you the assurance and credibility of making a purchase that you can count on.

Ease and efficient.

At V-Guard we are not just thinking up the next innovation. We are constantly seeking to understand human life and its relationship with the tools and appliances that he uses. The creation and designing of the Novio Modular Switches was made keeping the user's convenience at the forefront. These easy to use switches feature front insertion and removal mechanisms, making it simple to change modules from the front. They come equipped with captive screws that'll give way to a perfect installation without the screws falling off.

5 TOP REASONS WHY V-GUARD MODULAR SWITCHES ARE A CLASS APART:

- Enhanced safety and protection
- Higher Efficiency & Better Conductivity
- Simplified Installation & Removal of Modules
- Fire Retardant & UV Protected
